Career Objective

Aspiring Frontend Developer with a strong focus on building responsive and interactive user interfaces using React.js and modern web technologies. Eager to contribute to a dynamic development team and constantly enhance my skill set to build impactful web experiences.

Skills

Frontend:

HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, React Router, TanStack Query

Backend:

Node.js, Express.js, MongoDB, Firebase, JWT, REST APIs

Tools & Platforms:

Git, GitHub, Postman, Vercel, Netlify, Firebase Hosting

Projects

1. TechTinker – Service Sharing Web Application

[Live Site](#) | [Client Repo](#) | [Server Repo](#)

A full-stack MERN platform to book and manage tech support services efficiently.

Key Features:

- Role-based login using Firebase & JWT
- Service booking and real-time status updates
- Users can add, book, and manage services

2. HobbEx – Local Hobby Group Organizer

[Live Site](#) | [Client Repo](#) | [Server Repo](#)

A responsive web app to connect people through shared hobbies and organize group events.

Key Features:

- Create and join hobby groups
- Admin panel for approval/rejection
- Event scheduling with live participant status

3. AppVerse – Discover, Install & Review Apps

[Live Site](#) | [Client Repo](#)

A sleek React-based app store where users explore, install, and review apps.

Key Features:

- Browse trending apps & filter by category
- Secure login with Firebase Auth (Google & Email)
- Submit & view app reviews with 5-star ratings
